

# WHITSTABLE YACHT CLUB VISITORS ARRIVAL INFORMATION

When making your way to Whitstable Yacht Club, please do not use the club postcode in your SatNavs as it will take you down a very narrow street with no access to the club and limited room to turn.

Instead, use the postcode for Whitstable Harbour **CT5 1AB** and turn into the Harbour Car Park.

Continue through the car park passing the lifeboat station on your left and some black Fishermen's huts on your right.

Just past the Lifeboat station on your left there is a barrier (highlighted blue below) which will be unlocked for events. There should be people wearing Yacht Club High Vis to meet you there! Boats should be unhitched here and then walked across the beach to our allocated parking (highlighted red below).

It is important not to leave vehicle parked here for any length of time as it is a very busy area, so once the boat is unhitched you should move your vehicle to a car park or side streets. (If you have camper van parking you can proceed to the end of the West Quay, highlighted yellow below – separate instructions will be given to those that have booked re access to the compound etc)

Parking in Whitstable can be challenging and expensive. If you do not have parking with your accommodation, free parking is available on many of the side streets a little out of the town centre. There is a car park in Railway Avenue at the station at £3.00/day but you should allow approx. 10-15 minutes to walk back to the club.

The Gorrell Tank car park is the closest and largest, but at £3.70 per hour or £30 per day you can make your own mind on that!
